Software engineer

Dear Mark

I am writing this letter because we want to hire you as a part-time employee at Zoonga Coders for a part-time job. We are hiring you because we are impressed. Your work on GitHub, and we checked your background information and your experience in coding. You have ten years of coding; because of that, we want you in our company. You must know coding languages such as Python, SQL, Java, Ruby, Javascript, HTML, CSS, and CSS with Bootstrap and PHP. These languages are mandatory if you want to get hired.

Position

You can start with a junior software engineer position in our company because you are attending school, and we want to test you on coding. One to five years later, you can become a senior software developer.

Start Date

If interested, you can start with whatever you feel is compatible. You can even begin at night or start in the morning.

Salary

You are working part-time, and my company is small. Your hourly salary is \$42.31, which is \$3,879 weekly and \$46,558 annually.

Work hours

If you want, you must work 30 per week minimum; you can work more without pressure. You need to work 6 hours daily; you can work more.

Sincerely

Emre Gzuel

Front end developer

Dear Alexander

We are hiring you as a front-end developer for a part-time job. We have checked your GitHub account; you have good ideas for GitHub, and your background clearly shows that you are kind, so we want to hire you. However, you need to know HTML, CSS+Bootstrap, and JS strongly to get hired and be careful with designs when you do them to get accepted to this job.

Position

First, you will work as a junior front-end programmer. Depending on your work and performance, you can become a senior front-end programmer one to five years later.

Start date

You can start whenever you like. You can start at night or in the morning.

Salary

\$43K per year 3,583 per week per day, \$29.46

Work hour

You must work 30 hours per week but are welcome to work more. You must also work 6 hours a day, but you are welcome to work longer than that.

Sincerely

Emre Gzuel
